CARDINAL

FUTURE

Webster defines future as "that which is to come or be; of days, months, or years ahead." No one knows what lies in store for them in the future. During these past four years we have been preparing to meet that unknown future as a challenge, knowing that it will be only as successful as we, ourselves, choose to make it.

We dedicate this

1965
CARDINAL

to our future, in the hope that we will all find happiness and achieve the goals we set for ourselves.

To the Cardinal staff I offer my sincere congratulations on a job well done, and to the entire Senior class, I congratulate you upon the completion of your high school career. I am sure that you all realize that after graduation your education will just be beginning. I hope that we have prepared you well to assume the responsibilities as citizens to make your mark in the world. Please do not stop learning. It will take all the skill and knowledge and wisdom that you can muster to take over the duties and responsibilities of running this great country of ours; but I am sure that you will measure up.

Above all else, remember that you were put on this earth for a purpose. Work hard to discover what this purpose is and to do your best to accomplish it. It has been said that the greatest purpose of man is to have lived in such a way as to leave the world a better place for it. You are a fine group of young people, and I am confident that we are leaving the welfare and safety of this great country of ours in good hands.

Sincerely,

Brown L. Sevier

Dear Mr. Koenig,

We are sure you have often wondered how the class of '65 has fared these past ten years since our graduation. We have found some interesting answers here in Hayes Center.

To our surprise, when we pulled into town we spotted Larry Jeffers and Dwight Trusty still collecting old pop bottles for Mr. Pippitt. That noon as we were eating dinner in the cafe, Jack Evans and his wife came in. Jack said he keeps busy farming and looking after his cattle. He told us that Lana Griffiths has a big ranch up in the sand hills where she raises chickens for the big eastern chicken buyers. Suddenly there was a commotion out in the street. It seemed that Gary Nitsch and Elaine Fichtner just pulled into town in Gary's sports car. We hurried out to talk to them and learned that they are both working out in Hollywood now. Gary is the host of the Queen for a Day program and Elaine is currently working on a new movie--a comedy with Bob Hope. They told us that Darryl Howard is a surf bum--he just can't get enough of that California sun or those California girls in bikinis.

Since our time was short, we said good-by to them all and hurried down the street. We paused at the local furniture store to talk to Jerry Karre who has a job there demonstrating mattresses by sleeping on them. He told us that his buddy Tim Leffler was now racing cars and had just won the Grand Prix. He also told us that Lonnie Karre is working as a "high-shelf-reacher" in Macy's in New York. Just then John Miller strolled in to buy a new rocking chair. He is now on the Olympic swimming team and hopes to make a big splash at the Olympic games next year. When we happened to mention the paintings in the store, Jerry told us that Barbara Gier had done them. She is a very successful artist now.

Hurrying on our way, we passed a used car lot run by the former Peg Johnson and her husband Gary. We stopped briefly at the newspaper office where we talked to Keith Lapp who writes an "advice to the lovelorn" column for the paper. We learned from him that Jimmie Rucker is a very successful lingerie salesman back east and that Ron Beard now has a tobacco farm in Virginia. We also learned that Janet Rueter is a secretary, but in her spare time she is kept busy answering the question, "Do blondes have more fun?"

We said good-by to Keith and made a visit to the old high school. We ran into Colleen Palic who is presently teaching shorthand there. She told us that Charlette Lawson is a Home Ec. teacher in Oklahoma and gives tuba lessons in her spare time. We also learned that Pam Romersheuser is an auctioneer at the McCook Sale Barn.

It was getting late so we hurried on our way. We made a short stop at the new hospital and found Nurse Sharon Fichtner on duty . . . scrubbing floors. It seems she made a mistake and left a scalpel in some poor fellow's stomach during surgery. We also stopped to chat with Dr. Craig Fielding - the Hospital psychiatrist. He was on his way to see Lynda Schuman - she's his psychiatrist. Craig told us that Roger Floyd is a mathematician at Cape Kennedy and that Jim Shaw is a very successful architect and has been contracted to build Hayes Center's first skyscraper.

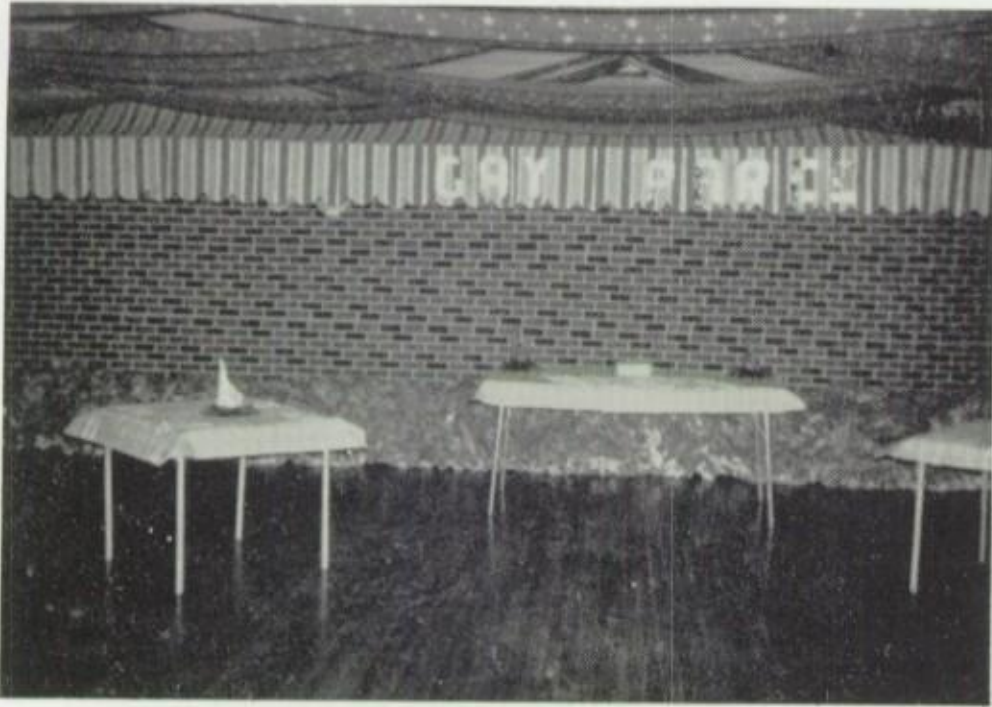

As we were heading out of town, we stopped at the home of Chuck and Marla Nitsch. Marla told us that Chuck has taken up deep sea diving for a hobby, but can't seem to find any deep sea in the area. Marla said all her spare time is spent trying to keep the dust out of their house. She told us that Suzanne Broz is still trying to understand all the automotive lingo and is writing a book for the gal who can't understand the anatomy of a car--Sue's 1,000 most common words for carrying on a conversation with a car-crazed guy." Jacki Mintling sings with a western band and also leads the annual trailride at Maywood.

We hope you've enjoyed reading about the class of '65.

Sincerely,
The Cardinal

Junior-Senior Prom — 1964

The "sidewalk" cafe consisted of card tables decorated with red and white checked tablecloths and paper centerpieces.

SERVERS: Dennis Schneider, Kelly Evans, Alan Hanneman, Gaylord Johnson, Claudia Bosley, Linda Cooper, Joyce Beebe, and Ingrid Palic.

The fountain, set beneath a sky of blue, star-covered crepe paper, was the center of attraction. A color-wheel turned making the water a variety of shimmering colors.

last football game over Culbertson

Hayes Center drew first blood last Friday night when they scored on a 9 yard run by Alan Hanneman in the first quarter. The second quarter went 0 for 0. But in the third quarter Bob Anthers of Hershey scored 6 points when Hayes Center had a bad snap from center on the one yard line.

In the fourth quarter, Hayes Center came back strong with a 32 yard run by Darryl Howard and a 32 yard run by Alan Hanneman.

Hayes Center vs. Culbertson Hayes Center completely dominated the game. With only seven minutes remaining in the game Hayes Center got it's first score. Culbertson scored in the first quarter on a 40 yard pass to Ed Case. But Hayes Center never had to punt and drove the ball deep into Culbertson's territory on numerous occasions only to have the ball fumble.

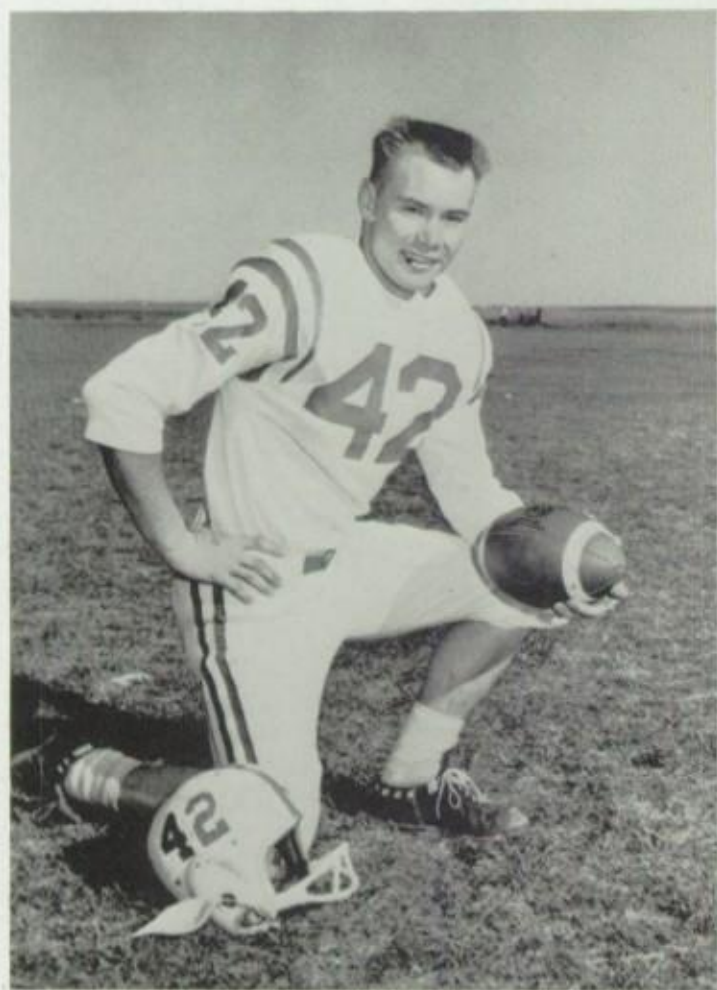

Hayes Center's defense was excellent. Fielding and their final score: Culbertson 12, Hayes Center 24.

FOOTBALL '64

The Hayes Center football team got off to a poor start, losing to Palisade, Indianola and Madrid by decisive margins. They then started playing hard nosed football and played Stratton at our Homecoming down to the final whistle.

We then went to Culbertson and defeated the bears and won our first game. After defeating Culbertson, we went to Sutherland and played the 5th ranking team in the state down to the finish but lost 19 to 14. The next two games fell our way on hard fought games with West Kearney and Hershey.

BASKETBALL 64-65

The 1964-65 basketball team began the season by losing to Madrid 53-45; however we played good ball.

We then beat Class B Curtis in a poorly played game at Curtis.

After winning our first game we dropped three more in a row before Christmas vacation to Culbertson, Palisade, and Indianola.

After Christmas the team started playing inspired ball, playing Class B Imperial down to the finish, beating Trenton and Palisade before losing to Stratton.

We beat a tough Wauneta team before going into the Southern Frontier Tournament at Palisade. Stratton again beat us and eliminated us from the tourney.

From this point on we were up and down the rest of the season.
